

PLAN A DAY OF CORRUGATED CAREER EXPLORATION

Employer Toolkit

Engage a younger population of students by emphasizing the impact of sustainability and the value of teamwork in the box-making process.

SHARE THE CULTURE OF CORRUGATED WITH STUDENTS

This toolkit offers a complete lesson plan designed to engage students in elementary (grades 3-5) and middle (grades 6-8) school classrooms. The resources and activities outlined below provide a comprehensive view of the culture of the corrugated packaging industry, including the industry's ongoing **emphasis on sustainability** and the **diverse career pathways** available in all stages of the box making process. By connecting sustainability, real-world careers, and problem-solving, these resources and activities help students see corrugated packaging not just as a product in their daily lives, but as a modern manufacturing industry with multiple entry points and career opportunities.

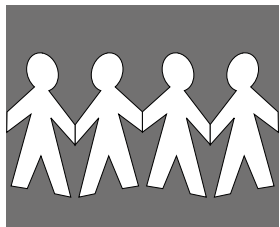

LEVERAGE ICPF'S RESOURCES FOR A FULL DAY OF CAREER EXPLORATION:

Conversation Starter — The Culture of Corrugated

- ✓ Introduce corrugated career pathways with **ICPF's Jobs Quiz**
- ✓ Share our sustainability story with a **Sustainability by the Numbers Worksheet**

Group Activity — Create a Corrugated Display
